

Tote/Diaper Bag and Receiving Blankets for Hope Clinic (2014)

Tote/Diaper Bag:

You may use your creativity for this tote/diaper bag.

- The only stipulation is that it is 15x15x5.
- Free patterns can be found on allpeoplequilt.com and ePatternCentral.com.
 - Any pattern that you have can be adapted to this size.
 - Keep the bags under 2 yards (1 yard for outside and 1 yard for lining).
 - A zipper is not needed unless you want to put one on your bag. They can have pockets inside or outside or both. Use a heavier iron on interfacing on the outside of the bag then stitch or free motioned.

Receiving Blankets:

Should measure 30x30. They can be made from flannel, cotton or jersey. How you finish the edge is up to you (surged, hemmed, etc). They may be single thickness or you may choose to double your fabric.
